Hourly Rate	\$6.00

Contracted Rates:

We sign a formal contract based on a standard weekly fee computed on a reduced hourly rate. Your fee remains the same each week for the contract period (either the length of the school year or for the full year). When or if your needs change we can alter the contract. There will be no reduction in weekly fee for absences or when the center is closed for a holiday or for any other reason. If you contract for the year you will be granted up to two weeks of prearranged vacation time without charge. If you contract for the school year you will be granted one week of prearranged vacation time without charge. Our year resets at the end of each school year. Every day we are open your child will be able to attend for the hours you have contracted. You may qualify for financial assistance through DHHS or other programs/scholarships that may be available through our partnering agencies. Please inquire if you would like to know more.
